EXPERIENCE

United Regional Health Care System

March 2025 - April 2026

Service Desk Analyst (ServiceNow Developer / System Administrator)

Wichita Falls, TX, USA

- Designed and delivered end-to-end ServiceNow solutions, including requirements gathering, system design, development, testing, and deployment
- Built and maintained workflow automations using Flow Designer, reducing manual effort by 30–50% across onboarding and service request processes
- Implemented 3+ REST API integrations between ServiceNow and external systems (including Oracle HCM), handling authentication, data mapping, and error handling
- Developed catalog items, UI policies, client-side and server-side scripts using JavaScript to support enterprise onboarding and access management workflows
- Developed and debugged ServiceNow workflows using Flow Designer and JavaScript-based scripting, resolving complex automation and data dependency issues
- Modeled and supported CMDB data, including relationship mapping and data normalization for enterprise systems and assets
- Contributed to ITSM implementation and supported ITOM-related initiatives, including service visibility and monitoring improvements
- Helped achieve a 100% CSAT score through improved service delivery and automation

Rapco Parts Company

December 2024 - March 2025

Order Fulfillment / Web Developer

Bowie, TX, USA

- Packaged and processed orders on average 20 orders a day through Turbify and FedEx shipping manager
- Led migration of legacy e-commerce platform (Turbify/Yahoo Small Business) to Wix, improving maintainability and usability
- Developed and customized 10+ webpages using JavaScript, HTML, CSS, and Wix Velo API

Midwestern State University

August 2023 - May 2024

Student Support Services Tutor

Wichita Falls, TX, USA

- Delivered instructional support and tutelage to students enrolled in STEM courses
- Participated in monthly tutor meetings led by program coordinator to discuss performance and program improvements
- Participated in organization-led events involving staff, tutors, and students

Midwestern State University

January 2023 - May 2023

Student Assistant

Wichita Falls, TX, USA

- Coached concepts such as abstraction, object-oriented programming, GPU programming and networking using C, C++, C#, and Python
- Assisted students with setting up and utilizing coding environments, such as Windows Subsystem for Linux and Visual Studio Code
- Aided students developing C++ and Python applications with debugging

EDUCATION

Midwestern State University

May 2024

Master of Science (MS), Computer Science

GPA: 4.0

Midwestern State University

December 2023

Bachelor of Science (BS), Computer Science

GPA: 3.8

PROJECTS

CLR VIA - Web Application

- ReactJS web application that allows the users to easily build their resumes, cover letters, curriculum vitae, or portfolio website with the help of Google Gemini AI
- Developed using ReactJS, NodeJS, Python, PostgreSQL, SQLAlchemy, Google Cloud APIs, Google Gemini API, and RESTful API built with FastAPI.

Scholarly App - Desktop Application

- Windows 11 application designed at the request of the MSU Computer Science Scholarship Committee, by a team of two
- Allows Committee members to filter through students eligible for scholarships and awards and send generated acceptance letters to eligible students via email
- Developed using Python, SQLite, Google Cloud APIs, and PyQt6 library.
